

ARE YOU READY FOR...

# NEW GHS GUIDELINES?

OSHA has adopted the Globally Harmonized System of Classification and Labeling (GHS). This system will change how manufacturers and employers communicate potential chemical hazards to employees. The new GHS-formatted Safety Data Sheet (SDS) is an expanded, international format which provides employers with health, safety and environmental information about a specific product.

## Lincoln Electric will provide customers:

- GHS-formatted SDS documents via web, mobile device or email.
- Automatic email alerts regarding SDS updates and product changes.
- Included in every package is a Safe Use Guide (SUG), an informational guide to safely use our products.

## ACT NOW!

Contact your Lincoln Electric representative today and register to receive GHS-formatted SDS documents via email.

 <b>SAFE USE GUIDE</b> Submerged Arc Flux	Rev. 11/14/2014
	Version: 2.0
<b>IMPORTANT:</b> This Guide contains important safety and health information – READ Both Sides. Before working, please read and understand the Warnings and Instructions on the Product Container and the Safety Data Sheet (SDS) previously issued for the product you are using. Use your Safety Data Sheet or Supervisor to obtain a copy of the SDS. You may also obtain a copy of the SDS through use of the online system at <a href="http://www.lincolnelectric.com/sds">www.lincolnelectric.com/sds</a> from your Lincoln Electric Distributor.

## CUSTOMER ASSISTANCE POLICY

The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of, the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
