

# Lincoln Electric Supports Education

## Education Resource & Purchasing Portal

The Lincoln Electric Education Resource & Purchasing Portal allows qualified schools to obtain welding program supplies and educational resources necessary to instruct future skilled trades personnel in the craft and science of welding.

The web-based 24/7 access portal allows the instructor to download resources like basic curriculum and safety materials, videos and training documentation. Schools can also obtain exceptional pricing on premium welding electrode and wire, welding gear, guns and expendable parts, fume extraction filters and more.

### HERE'S HOW THE PROGRAM WORKS:

Qualified Schools<sup>2</sup> can register to participate in the Lincoln Electric Education Resource & Purchasing Portal. Tax exempt organizations will be required to upload an exemption certificate at the time of registration.

Log on to myLincoln to place online orders for welding consumables, personal protection gear, expendable parts and accessories. Special program pricing applies to online orders only. During the checkout process, select your preferred partner from a list of local eligible distributors. (One distributor per school location)

Lincoln Electric will ship the order directly to your school. Receive Free Standard Shipping of Online Orders greater than \$500 for the contiguous United States.

# ORDERING IS EASY!

Visit [lincolnelectric.com/education](http://lincolnelectric.com/education) to start the registration process.

<sup>1</sup> All products are intended for education purposes. Participating educational institutions may not resell to any third party. Program available only in the continental United States.

<sup>2</sup> A Qualified School is an educational facility that teaches welding. This excludes manufacturing customers with in-house welding programs.

### Benefits:

- » Access a variety of classroom training and safety materials
- » Stream educational videos from a secure and approved portal
- » Exclusive educational pricing on premium electrode and wire as low as a \$1/lb.
- » Special pricing on personal protection gear, expendable parts and Magnum<sup>®</sup> accessories
- » 24/7 online order process and access to order history and tracking information
- » Affiliate online purchases with a participating distributor
- » Instant Credit Limit applied to your account for immediate purchasing
- » Free Shipping on Online Orders greater than \$500 for the contiguous United States (Standard Shipping Only)

For questions or inquiries about the program, call **888.610.1095**

Personal Protection Gear (Welding Helmets, Welding Apparel and More) Examples:

VIKING™ WELDING  
HELMETS STARTING AT  
**\$27.43**

RED LINE™ FACIAL PROTECTION  
STARTING AT  
**\$1.35**

RED LINE™ WELDING JACKETS  
STARTING AT  
**\$24.65**

RED LINE™ WELDING GLOVES  
STARTING AT  
**\$8.21**

RED LINE™ CAPS & DOO RAGS  
STARTING AT  
**\$2.12**

WELDING GEAR READY-PAKS®  
STARTING AT  
**\$135.17**
