CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company® is manufacturing and selling high quality welding equipment, consumables, and related products. We are also engaged in the repair and maintenance of welding and related equipment and the sales and rental of the same. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability, based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements of the application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our part. In particular, any warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers’ particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

**X-Tractor® 3A, 5A & 8A**
- High-vacuum systems designed to provide suction for attached nozzles or fume extraction guns
- Perfect for heavy-duty vacuums
- Made with high-strength arm and arm system
- Perfect flexibility

**Magnum® PRO 150 / 500 Fume Extraction Guns**
- Line of air-cooled air-cooled fume extraction guns
- Intended for confined spaces in high productivity fabrication and production environments
- Low vacuum suction
- Manual or automatic crank
- Innovative "Vacuum" feature

**ENVIRONMENTAL PRODUCTS SELECTION GUIDE**

**Miniflex®**
- High-quality, small portable fume extraction systems
- Perfect for general shop work
- Single or multiple booth options
- Connects to a fume gun or extraction nozzle
- Lightweight and portable, high-vacuum system

**MobileFlex® 200-M & 400-MS**
- Modular extraction arms designed for mobile applications
- Compact and versatile
- Available with automatic cleaning or disposable filters
- Perfect for general/heavy fabrication, welding, and plasma cutting processes

**Statiflex® 200-M & Statiflex 800**
- All-in-one vertically positioned filter bank
- Perfect for general fabrication and job shops that require fume extraction
- Available with automatic cleaning or disposable filters

**DownFlex® 400-NF / 200-M / 400-MSA**
- Weld fume downdraft table
- Connects to a fume gun or extraction nozzle
- Available with automatic cleaning or disposable filters
- Perfect for general/heavy fabrication, welding, and plasma cutting processes

**Statiflex® Filter Bank**
- All-in-one vertically positioned filter bank
- Perfect for general fabrication and job shops that require fume extraction
- Connects to a fume gun or extraction nozzle

**Magnum® PRO 550**
- High-vacuum systems designed to provide suction for attached nozzles or fume extraction guns
- Perfect for heavy-duty vacuums
- Made with high-strength arm and arm system

**Guardian™ Free-Standing General Filtration System**
- Free-standing general filtration system
- Ideal solution for welding fume extraction in all scenarios
- Can be customized to fit a non-standard environment

**Circulator® Free-Standing General Filtration System**
- Free-standing general filtration system
- Ideal solution for welding fume extraction in all scenarios
- Can be customized to fit a non-standard environment

**Magnum® PRO 150**
- High-vacuum systems designed to provide suction for attached nozzles or fume extraction guns
- Perfect for heavy-duty vacuums
- Made with high-strength arm and arm system

**A complete system to prevent, detect and suppress fires in welding and plasma cutting systems**
- Reduces the risk of fire in a moment
- Detects fire, sound, and vibration
- Audible and vibrating alarms notify user of low air flow or low battery

**Welding Booths**
- Available in 6ft, 8ft, and 10ft widths
- Single or multiple booth options
- Equipped with fume extraction systems

**Modular Extraction Hoods**
- Available in 3ft, 4ft, and 5ft widths
- Single or multiple booth options
- Equipped with fume extraction systems

**Formed Extraction Hoods**
- Ideal solution for welding fume extraction in all scenarios
- Can be customized to fit a non-standard environment
