

# INTRODUCING GEM-PAK™

## ALUMINUM BULK PACKAGING SYSTEM

### Features

- » **Tangle Free** - Prevents tangling and improves feedability.
- » **Easy to Set-up** - No external payoff devices required.
- » **Corrugated Cardboard Pallet** - Fork-lift ready mini-pallet comes attached to the box for maximum portability and is 100% recyclable.

Payoff Kit  
K2175-2

### SuperGlaze® Aluminum MIG Wire - Tangle-Free Guaranteed.<sup>(1)</sup>

Lincoln Electric's patented Gem-Pak is a bulk packaging system designed to increase production without using expensive external payoff devices. This engineered system creates a controlled feed system unlike any other aluminum bulk packaging system in the industry.

*Gem-Pak performance is so predictable, it's guaranteed.<sup>(1)</sup>*

### Additional Payoff Accessories (not shown):

EC-4 Conduit Connector      AD1230-14  
Conduit Connector Liner      AD1329-583
