PIPELINER® ARC 80
The Preferred Pipe Rod

The Preferred Pipe Rod
- Expert pipeline welders agree in blind test – Pipeliner Arc 80 is easiest to use
- Clear puddle allows the operator to easily see and manipulate the puddle
- Fast freezing slag helps to keep the welder in control
- Easier to use, so more pipe joints are completed each day

Higher Quality, Fewer Repairs
- Measurably less porosity
- Square burn-off at the tip helps to reduce unnecessary arc manipulation and produce a sound weld deposit
- Consistent coating eliminates arc wander
- Easier to pass qualification testing

The Symbol of Dependability
- Lincoln Electric stick electrodes are easily identified by Three Dots®, a recognized symbol of quality, consistency and unparalleled welding expertise
- Open a can and use every rod – 100% coating integrity
- Standard Q2 Lot® Control and Test Certificates show actual chemistry and actual mechanical properties per lot

More Welders Prefer Pipeliner Arc 80 Over Competitive Products

Q2 Actual Lot Testing
Every Lot, Every Time – No Additional Cost

*Parameters rated by actual pipeline welders included arc force, puddle fluidity, arc stability, resistance to blistering (non-uniform swelling of the coating), fingernailing (arc wandering on the joint legs), visible porosity, bug holes, spatter and slag interference. Conducted December, 2015.

CUSTOMER ASSISTANCE POLICY

The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
