

SAHARA READYBAG® PACKAGING

Protection Perfect

KEY FEATURES

- Sahara ReadyBag packaging provides superior protection from the elements.
- Nylon reinforced construction protects against damage.
- Multilayer foil lining eliminates moisture pickup, even during the most severe storage and shipping conditions.
- Unopened packages maintain low diffusible hydrogen integrity.
- No need to pre-bake flux before use.
- Patented Dry-seal lid with thief-port opening prevents contamination during storage and sampling.

BULK BAG WITH DRY-SEAL™ LID

Available for most flux products in 2,200, 2,600 and 3,000 lb. bulk packaging

HERMETICALLY SEALED 50 LB. BAG:

Lincolnweld® MIL800-H™ (ED035892)
Lincolnweld® MIL800-HPNi™ (ED035893)

MOISTURE PICK-UP COMPARISON

- All packaging exposed to 100°F and 80% relative humidity during testing
