

ENHANCED FREEDOM AND MOBILITY FOR TIG WELDING

Wireless Pedal

Shown:
Wireless Pedal, K4217-1

KEY FEATURES

The Wireless Pedal makes it easier to access hard-to-reach areas. Improve operator mobility, reduce cable clutter, and create a more comfortable and productive TIG welding experience.

- Enhances workplace safety
- LED displays foot pedal battery life, welding output state and signal integrity
- Extension legs that adapt to any angle or surface
- Power cable adapter for 120V service
- Dual-Power Mode™ optimizes communication performance in challenging wireless environments when needed

What Is Included »

Wireless Pedal (K4217-1)

Includes:

- K4218-1 Foot Pedal
Requires 3 AA batteries (not included)
- K4219-1 Receiver (with power cable adapter requiring a 115V service, not shown)

Recommended Power Sources »

- Square Wave® TIG 175
- Precision TIG® 225, 275, 375
- Invertec® V205-T, V350 PRO
- Power Wave® C300, S350, S500 (all require a K2909-1 adapter)
- Power MIG® 350MP
- Flextec® 350X, 500, 500P, 650 (350X, 500 and 500P requires a K2909-1 adapter)
- Aspect® 375
