AIR VANTAGE® 566X HYDRAULIC
Diesel Engine Driven Welder/Generator

The Ultimate Utility Machine

POWERFUL
• Equipped with a 65.7 hp, turbocharged Deutz® diesel engine
• True 575 amp machine (IEC rated)
• Integrated 60 cfm VMAC® air compressor
• Built-in 10 gpm hydraulic pump

DEPENDABLE
• Field-proven ruggedness - Encapsulated GFCIs, stainless steel paneling, and potted PC boards for added protection and durability
• Reliable cold-weather starting and high altitude performance

CAPABLE
• Expanded welding capabilities for stainless, aluminum, and steel as well as advanced SAW and orbital pipe modes¹
• Pulse welding capability for better arc control in out-of-position work and low heat input for critical welds¹
• CROSSLINC® ENABLED²
  – Change weld parameters at the arc without an additional control cable to help increase productivity, promote safety, and improve weld quality

Processes »
SMAW (Stick), FCAW (Flux-Cored), GMAW (MIG), GMAW-P (Pulsed MIG), GTAW (TIG), CAC-A (Arc Gouging)

Output »

Input »

Product Number »
K4343-3

Industries Served »
• Maintenance & Repair
• Pipeline
• Power Generation
• Shipbuilding
• Structural

Key Accessories »
• LN-25X® Wire Feeder
• Activ8X® Wire Feeder
• CrossLinc Remote
• PF-25M™ Wire Feeder

¹ Requires ArcLink® Communications accessory.
² Requires CrossLinc enabled accessory.
CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers’ particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

(1) When welding, available auxiliary power will be reduced. Output voltage is within +/- 10% at all loads up to rated capacity.
(2) Circuits cannot be wired in parallel to operate the same device.
(3) Includes width of door. Base width is 31.6” (803 mm).
(4) Machine only – Does not include fuel.
(5) Engine warranted separately by engine manufacturer.
(6) Compressor warranted separately by compressor manufacturer.
(7) VMAC® synthetic compressor oil recommended for best operation results, or oil approved by VMAC®

Manufactured at a facility with certified ISO Quality and Environmental Management Systems.
